This year, I will handle the [@Botconf](#) recording and steaming on YouTube. I will use two Atem Mini from Blackmagic. I did the first rehearsal today, this is so user-friendly and efficient.

Ooooh. Will you handle the Botconf 2019 videos too?

So are you Eric and if you have that video and want to publish it, that'd be cool. :-)

I've procrastinated too much on this... My personal secret aim: release everything before Botconf ~~2020~~ **2023**
